About the Book

Quality library service means resources and services which satisfy users' expectations and needs. The library services have been changing rapidly in the last few years. The primary objective of this book is to delineate the various issues to gear up the quality library services, so that the user community can meet their expectations through library. The book basically deals with the "Quality Library Services in New Era" which highlights concept of quality library service, role of library professionals for quality library service, implementing quality library services through mobile apps, space design and quality library service etc.

This book contains seventeen research oriented articles pertaining to relevance of the title. Hope these will throw some light for library professionals, faculty members and the students of Library and Information Science who are pursuing MLISc and Ph.D courses. Our industrious undertaking would bear fruits if the book will succeed in harbouring positive responds from our esteemed readers.
